To the Public.

THE SENTINEL, having double the circulation IN THE CITY, and more than treble OUT OF IT, of any other paper here, renders it far the cheapest and most desirable medium in Milwaukee for all classes of Advertisements.

EVERY BUSINESS MAN who consults his own interest, will avail himself of the columns of THE DAILY SENTINEL,—especially when he can do so at the same prices charged by other papers, and secure more than double the advantage of circulation.

This is no BOAST, but EVERY WORD TRUE.

News Digest.

J. T. WILLIAMS, late of Milwaukee, was murdered recently by a party of Mexicans, near Los Angelos, Cal. He was in the employ of the Overland Mail Co.

Election returns from Georgia indicate that the BRECKINRIDGE party has carried the State.

Senator SEWARD addressed a very large meeting of Republicans at Cleveland yesterday.

The Prince of Wales reached Washington Thursday, and is the guest of the President.

Details of the *Connaught's* foreign news will be found in our telegraph columns.

REPUBLICANS TO THE WORK!

FOUR WEEKS from next Tuesday, the Presidential election takes place. The result is already a "*foregone conclusion.*"—LINCOLN and HAMLIN will carry every Free State, with the possible exception of California. BRECKINRIDGE, or BELL will be next in the race; and DOUGLAS *nowhere*. It is very doubtful, now, whether DOUGLAS will obtain a single electoral vote in the United States.

But though the victory is assured, there is none the less reason for active effort and untiring vigilance on the part of the Republicans. We ought to carry Wisconsin by *fifteen thousand majority*. We need at Washington an entire Republican representation. We must have, at Madison, an undoubted Republican Legislature. Anything short of this would be discreditable to Wisconsin and unworthy of our cause.

We urge our Republican friends, therefore, in every County and Town of the State, to make ready for the eventful day in November, which is to decide the contest between FREE and *Slave* Labor. With such an issue before us, WISCONSIN ought to speak trumpet-tongued. No Representative should be sent to Washington; no Senator, or Assemblyman elected to the next Legislature, who is not committed, heart and hand, to the interests of FREE LABOR, to the rights of the North-West, and to the restriction of SLAVERY. Men who "do not care whether Slavery is voted up, or down;" men who think that "Capital should own Labor;" men who are indifferent to the interests of the North-West; men who believe in protecting "the peculiar institution," but *do not* believe in encouraging American industry and enterprise; men, in short, who truckle to the South and turn their backs upon the North—let no such men be trusted! Give us, rather, those who believe in the truths of the Declaration of Independence; who think that the rights of man are not a mere abstraction; who cling to the policy and doctrines of the fathers and founders of the Republic; and who regard SLAVERY as *Sectional*, LIBERTY as *National*.

There is vitality enough, in the "Irrepressible Conflict," to ensure the State of Wisconsin for LINCOLN and HAMLIN by a large majority; but let it be our effort and determination to make the majority OVERWHELMING.

Douglas Cursing Himself.

During the debate on the Missouri Compromise in 1850, Mr. DOUGLAS bitterly cursed the man who should dare disturb the Missouri Compromise. He said:

> Blistered ought be the tongue, and palsied ought be the hand, that would speak against and disturb so sacred a compact.

The tongue that soon afterwards spoke against that compact was the tongue of Mr. DOUGLAS, and his was the hand that tore it asunder. Here is his glorification of that foul deed, spoken in Cleveland, September 22d, 1860, recorded by his own reporter, and published in his own organ, the *Plain Dealer* of Sept. 24th.

> I had more to do with the repeal of the Missouri Compromise than any live man. I boldly avow it and shoulder all the responsibilities of the act. *There is no act of my whole public life, of which I have a more conscious pride, than the repeal of the Missouri Compromise.*

If the curses of Mr. DOUGLAS in 1850 were not "mere sounds and fury, signifying nothing," we should expect to see his tongue blistered and his hands palsied after such a declaration. Of a truth, "curses, like chickens, come home to roost."

A VOTE ON A MISSOURI RAILROAD.—Coming through Missouri, on Saturday last, in the morning express train from St. Jo. to Hannibal, a vote was taken among the passengers for next President of the United States. A BELL man collected the suffrages and reported the following result:

Lincoln	88
Douglas	26
Bell	24
Breckinridge	7

This, in a Slave State, was quite satisfactory to the LINCOLN men on the train. We do not, however, claim Missouri for LINCOLN, though the Republicans will poll 30,000 votes there, next month, against a few hundred in 1856. Missouri will vote for BELL, or DOUGLAS; most likely for the former.

ASSEMBLY NOMINATIONS.—The Republicans of the Platteville District, Grant county, have nominated HANMER ROBBINS for the Assembly. Mr. ROBBINS has been several times in the Legislature, and is a man of decided ability, improved by experience.—Gov. RANDALL was present at the Convention, and addressed a gathering of some eight hundred people. Old Grant is going to roll up the biggest majority this fall she has ever given the Republican ticket.

C. S. KELSEY, of Montello, is the Republican nominee for the Senate from Marquette, and E. J. BUCK, of Westfield, for the Assembly. Mr. KELSEY is one of the most active and influential Republicans in Marquette.

SHAWANO COUNTY NOMINATIONS.—Treasurer, John Wiley; Sheriff, Thomas H. Price; Register, Andrew N. Dix; Clerk of the Board, Albert Johnson; Clerk of Court, L. Goldstucker; District Attorney, W. B. Felker; County Judge, Elias Gumaer; Surveyor, Albert Johnson; Coroner; Wm. Powell.

MORE BODIES FOUND.—Two bodies from the *Lady Elgin* disaster were recovered this morning by Capt. James Jones, of the schooner Hirondelle, of Chicago. One is identified as that of William Foley, the other is unknown. Both were members of the Union Guard. They were found about 35 miles from Chicago, near the middle of the lake. The schooner goes out to-night to search for more bodies.—*Chicago Journal of Wednesday.*

Shocking Death from Hydrophobia.

The Detroit Advertiser states that Patrick O'Donnell, an iron molder of that city, twenty-two years of age, died of hydrophobia on Friday evening, after most horrible sufferings. He seems to have owed his death to his own carelessness. On the 27th of June last, a man who had a little dog which he believed to be mad was about to kill it, when O'Donnell, with whom the animal was a great favorite, snatched it up, and was immediately bitten on the hand. The wound soon healed, but a felon not long after made its appearance on the same hand. Whether the sore was in any way the result of the bite cannot be or is not stated. On Sunday week O'Donnell, who had hitherto been well, went out to ride with two young men, and drank quite freely, though, not in the cases of his companions, at least, to intoxication. O'Donnell, however, acted very singularly, often starting up, and biting one of his companions, generally in the hip.—One of them yet bears the black and blue marks of his biting. Hydrophobia, however, not thought of, but the singular conduct was ascribed to excitement induced to the drinking, though that even then seemed to have been hardly enough to make him so wild. He would, too, seize the whip and lash the horses into a run before he could be stopped. When he arrived at home his conduct was singular, and he indulged in strange expressions, like a man in a restless sleep, and at times clutch at the table, near by which he was sitting, and trembled as if suddenly startled.

On Monday he went to work as usual, and also on Tuesday. During the afternoon of the latter day, his fellow workmen noticed that he would be startled when the hot iron was poured as if excessively nervous. On Wednesday he was to ill to go to his work, but hydrophobia was not thought of, nor, in fact, was his illness considered to be serious, either by him or his family. On Thursday morning, the unmistakable symptoms of the most terrible of diseases were apparent, and from that time till Friday evening, when death was brought to his relief, his sufferings were frequently, and during the latter part of the last day continually, of the most intense kind. No pen can describe even the horror with which the sight of them afflicted the spectators. The raising of a hand by one several feet away occasioned a terrible shudder, "For God sake, don't do that, you take my breath away," he gasped out, and such is but one of the many incidents that were constantly occurring when his spasms were not on. There was a constant twitching of every limb, eyes staring as if to leap from their sockets, or clasping and clutching of the hands, and the like. When in the spasms he could scarcely be held. He would jump up and bite at everything near. The sight of fluid occasioned a most fearful exhibition of perfect dread, and at no moment was the unhappy man at rest. When not in spasms he was rational and conversed.

His death was hastened by his physicians, in mercy to him, after all imaginable means had been taken to arrest the disease. He often, when his sufferings were severest, begged of those around him to shoot him, or kill him in any way, to relieve him from misery.

The Slaver Storm King.

The brig which arrived at Norfolk, a prize to the steamer San Jacinto, proves to be the Storm King, as was supposed. This is the vessel which had the difficulty with one or two of the deputy marshals in New York city. There were found on board 130 women, 160 men, 68 female children, and 261 boys. A letter from an officer of the San Jacinto, in the *Times*, says:

"Proceeding from Monrovia, from where I wrote my last, we fell in on the way to Loando, about 100 miles from the Congo, with a hermaphrodite brig. She had no colors hoisted. On our approach we fired a blank cartridge and hoisted our colors. Still she pursued her course and showed no flag. We soon closed with her and she was ordered to heave to, and boats were immediately lowered to board her. Lieut. A. K. Hughes and C. F. Float, Esq., captain's clerk, went on board to examine her. Our request to be permitted to come on board was answered in Spanish, but the faces leaning over the railing appeared to be so familiar to an American countenance, that no doubt remained that she was a prize. One of her crew at the same time dropped the remark "there are plenty of them on board." She was immediately taken possession of and three cheers given for her as a legal prize.

The unfortunate captives seemed to be so glad to see us, that it was impossible to look on and not have our feelings of humanity touched. They were filled with joy, and lifted their hands to greet us. They were all naked—of both sexes—it was a brutal sight. As soon as we came on board we let them come on deck and they immediately sat down there. The captain who took her out of New York is on board, under the name of John Lockhard. He claims to be a passenger, and says this brig was sold at the Congo, (at Punta da Lenha) and that a Spanish captain and two mates came on board. One of her original crew had died on her passage out. She has no papers on board, and no flag. Lieut. Hughes was sent home as her prize-master, and Midshipman R. S. M. Cook, and Master Mate Charles Ewing.

I understand from the crew captured, that the Sumpter has taken another vessel off Kabenda, in the act of shipping her cargo, and took about $10,000 on board.

The Storm King has been three times boarded by the English cruiser Spitfire, which ship, the last time, fired across her bows to bring her too; but the Storm King, having a good breeze, showed her keel to this slow coach, and we took her. The wind was not very strong on our approach, so that she could not very well get away.—One of the crew on board the prize, was recognized immediately by Lieutenant Commanding Armstrong and Mr. Float, who, when cruising in the Bight of Benin, on the Sumpter, saw him at Whydat, and he claimed to be then the mate of the brig K. Harris, which the Spitfire took, under the name of Hamilton. The whole crew look like resolute men, daring, and capable of extreme brutality.

All the negroes were free of irons, and plenty of provisions and water was found on board. A few of them suffer already from itch and scurvy.

THE CARL SCHURZ CALUMNY.—*Eds. Gazette:*—I observe that the *Enquirer* attempts to excuse itself for its mean misrepresentation of Carl Schurz, by alleging that it was misled by some other paper, the New York *Express*, perhaps. The N. Y. *Journal of Commerce* is trying to retreat under the same cover. That paper makes a sort of lame and reluctant apology for its misrepresentation, and says it copied the extract from some other paper. This excuse may be true in the case of the *Journal of Commerce*. That paper did not copy the extract at all, but published it in an original communication, in its issue for the 29th inst., written "for the *Journal of Commerce*," and signed "CITIZEN;" and I have no doubt the writer of the communication in the *Journal*, used the same authority, for the extract is printed in the same way in both papers, the same words being printed in italics or capitals.

INDIANA.—Our advices from Indiana continue to be of the most encouraging character. We are assured by the leading Republicans of the State, some of whom were here on Tuesday, that there is no reasonable doubt that their entire State ticket will be elected by a decisive majority, although both wings of the sham Democracy have united in opposition to it. Lane's majority on the 9th, is by none of them estimated at less than 5,000; and all claim that Lincoln's plurality will be 25,000 to 30,000 in November. Whatever the fate of the State ticket, provided it be not beaten more than 20,000 votes, the triumph of Lincoln is assured.—*Chicago Press & Tribune.*

The Horse Show.

Notwithstanding the weather, there was a very good turn out yesterday at the Fair Grounds. The managers have not allowed the unpropitious skies to dampen their ardor, but have kept right along examining the different classes and going through with the programme as announced. Mr. DUTCHER, of Madison, made a very good display yesterday, and although the track was not in the best of condition, satisfactorily proved to the spectators that there was "blood" on the grounds. To-day will be one of unusual attraction—we may expect the course to be in capital order, unless more rain should fall, and the Roadsters and Stallions will be shown up and speed tested.

The holders of all the blood stock have consented to let their animals remain over Saturday, and that day will undoubtedly be *the day* of the week.

As it is, a large crowd may be expected on the grounds to-day.

There is a dining hall on the grounds, where refreshments of decided excellence may be obtained at all hours during the exhibition.

BODY OF ALEX. CORBITT FOUND.—The body of ALEX. CORBITT, late compositor in the *Wisconsin* office, and lost on the *Lady Elgin*, is said to have been found fourteen miles north of this city, near BERNHARD'S peir, and to have been buried there. It seems almost incredible that he should float that distance; yet the articles found in his possession are said to prove satisfactorily that it is his body. It is some satisfaction to his friends, that even the indistinguishable mass into which his body has become converted, is recovered, so that he may be decently interred, and they may visit, from time to time, the last resting place of him who was dear to them on earth. Peace to his remains.

His friends have gone after the body, to bring it to this city, for burial. There can be no mistake as to the identification of his body, as the pin upon his shirt, his printer's rule, &c., all prove it.

AT A MEETING of the Common Council, (in joint Convention,) on Wednesday, the following persons were appointed and confirmed to their respective offices.

Chief Engineer—JOLETT H. BUENING.
First Assistant—PETER VAN VECHTEN.
Second Assistant—PHIL. DAILY.
Third Assistant—THOS KERR.
Bridge Tenders—WM. O'MARA and MICHAEL MURPHY.
Harbor Master—MICHAEL QUIRK.

THE FIFTH WARD Lincoln Club, at a regular meeting held on Wednesday evening, Oct. 3, adopted a resolution ratifying the Republican nominations for County officers, and pledging to support the election of the entire ticket.

THE SYNOD OF WISCONSIN will be in session this morning, at the North Presbyterian Church, Dr. BUCHANAN'S.

THE BODY of RICHARD COMMERFORD, formerly a member of the Light Guard, is reported found.

Thorough Organization.

At the Republican Convention on Wednesday, a resolution was introduced by Mr. PRENTISS, and adopted, instructing the County Committee to take such measures as might be necessary to canvass the county, and make a register of all the voters, as the most efficient means of perfecting and completing the organization. This is a step in the right direction, and will be followed by good results. In every district where this has been accomplished, increased Republican majorities have followed, and by no other means can the work be so thoroughly and satisfactorily pushed forward. The vigor with which the canvass is begun is eloquent of what may be expected. In no way can the county and city be redeemed but by the persistent labors of Republicans.—Personal efforts must be put forth. The work must be systematized, and the strength expended when it is most needed. Let the plan be followed and carried out in the same spirit in which it is proposed, and the consequences will be apparent at the election.

THE FALL FASHIONS now occupy much of the attention of ladies, and the New York papers of the past week have reported the various "openings" of the milliners of that city for the season. We select therefrom the details, as we doubt not they will be read with interest.

Mantillas and cloaks are thus described:

A cloak made of Soleil cloth, trimmed with black and white figured velvet. In place of a hood, the material is drawn up at the back with a large velvet trimmed rosette with long ends, &c.

A manteau Armenian of black ribbed Astrakan cloth, trimmed with chinchilla fur. The sleeve of this is very handsome, being large and flowing.

A walking robe of black corded silk, drawn in at the waist in the style of a pelisse, with fine work. The trimming is composed of guipure lace, and is very chaste.

A mantle of black silk velvet, with facings and edgings of white corded silk, trimmed with guipure lace, very neat. The lining is of black silk, very finely quilted. The front is a *revers* of white silk.

A *Casaque Russe* of black cloth with Astrakan trimming. The waist fits quite tightly to the figure, with a Zouave back, &c.; a large bell sleeve, finely trimmed to match; buttons and loops down the front from the neck to the waist. This is pronounced to be the greatest novelty of the season.

A *Mealchin* cloak of black silk velvet, trimmed very deeply with black Chantilly lace across the shoulders; a heading of narrower lace of the same kind, and a *passe mantre* with jet. Sleeves trimmed to match; lappel on each sleeve, black silk and embroidered buttons in the shape of acorns; sleeves lined with a ruche of purple colored silk, and the general lining composed of quilted black silk. Around the neck is a trimming of Chantilly lace. This has been sold for $300.

A loose *Casaque* of *gracieuse gros d' Ecosse* trimmed with guipure lace and jet. *Revers* front of the same material as the cloak, also trimmed with the same kind of lace. Buttons and loops to the waist. This chaste article has been sold at the exceedingly low price of $75.

THE INDUSTRIAL SCHOOL.—A meeting of "ladies interested in an Industrial School" took place in the Lecture Room of the Plymouth Church, Tuesday afternoon. We trust the attendance on that occasion was not a measure of interest of the ladies of Milwaukee in this good cause. Not more than three or four churches were represented, and those very meagerly. This is not a work to be left to one church. It has claims on all alike. If the ladies of Plymouth Church have commenced it, we should not be behind them in zeal for its support. Are there not in this city, among the followers of HIM who "went about doing good," hundreds of ladies who might, with a little self-denial devote one-half day each week to this work. Are there not hundreds of men who could give a few dollars to pay to aid the expenses of the school? Are there not, too, hundreds upon hundreds of destitute, neglected children who can be reached in no other way so well as this.

As money is necessary to commence with, the plan adopted last Winter was that each one who entered the service should pay twenty-five cents, as a sort of initiation fee. It has been proposed to raise this fee this year to fifty cents, or one dollar. It seems to me it would be better to remove it altogether. There are some ladies who could pay twenty-five dollars as easily as others whose hearts are equally in the work, could pay twenty-five cents. Some who have no time to spare might contribute money.—Others who really do not feel able to give money, would gladly do something for the cause. The warm-hearted Christian woman who has no money to spend in helping the destitute, is just the one to want to give what she can—her time. If our hearts are right for the work we shall not need a fixed fee to bring our money into the treasury, but each one will freely give according to her ability.

PROOF OF THE PUDDING IS IN EATING it, and to know the real merits of a medicine is to test it by giving it a fair trial. Every one troubled with humors that arise from impure blood should lose no time in testing the merits of Dr. Weaver's Canker and Salt Rheum Syrup and Cerata.

VAN WERT, O., July 26th, 1858.

DEAR SIR:—Having sold "Dr. Richardson's Sherry Wine Bitters" for the last two years, I most respectfully recommend it to the notice of Dyspeptic persons, and all persons who require a stimulating medicine. D. K. GALLEHERS, M. D.

MILWAUKEE COUNTY COURT, IN Probate. In the matter of the Estate of F. G. Ludwig, deceased.
Notice is hereby given, that by virtue and in pursuance of an Order of License made in said matter, on the 30th day of March, 1860, by the County Court of said County, the undersigned, administrator of the estate of F. G. Ludwig, deceased, will on the 16th day of October, 1860, at 10 o'clock in the forenoon, at the premises hereinafter described, offer for sale at public auction, the following described lands to-wit:
Lots 1, 2, 3, 4 and 5, in Block one hundred and twenty three (123), in the First Ward of the City of Milwaukee, County of Milwaukee, and State of Wisconsin.
Terms of sale made known at the time and place of sale.
Dated September 19th, 1860. CHRISTOPH BAST,
sept20k115dtd Administrator.

ESTABLISHED IN 1847.
CITY AUCTION ROOM.
I AM NOW SETTLED IN MY NEW store, corner of Wisconsin and Main Streets, (Young's Block) a few doors below the Post Office. I have taken this location because I think it preferable for the auction business to any other in the city. Thousands of people pass the corner where I now am, which pass no other in the city, for it is well known that every person goes to the Post Office. I call upon all who have any Dry Goods, Boots and Shoes, Furniture, or Apples, or anything whatever, that they want to dispose of at auction, to send it to my auction room. I will use all my energy to dispose of all goods consigned to me to the best advantage, and prompt returns will be made. I have been engaged in the auction business in this city for thirteen years, and I have tried to do what is right unto all.
I also continue my Land Agency business. My office is in the rear of my store, entrance on Main St. I will attend to all sales of Real Estate either at public or private sale. I will make exchange of real estate with all who want to exchange. Any who have goods to exchange for good real estate in the city or country, I can always get them up a good trade and some money with it; probably there was never a better time to invest in real estate than the present. Prices of lots in our city are very low; lands adjoining our city are exceedingly low, compared to prices four years ago; but these low prices will not last long, and it is generally believed by all who have lived as long in the West as I have, that next spring will see a sudden rise in real estate throughout this city and country.
This is the time to secure you a good homestead. Now is the time to make investments. I call upon all who have property to dispose of to leave a list of the same with me. I keep a register expressly for that purpose, which will be exposed to the inspection of all, from day to day. I shall keep myself posted in real estate, from day to day, as I have done for the last ten years, and will be happy to give information to all who may wish it.

City Auctioneer and Land Agent,
Corner of Wisconsin and Main streets, Young's Block, a few doors below the Post Office. sep13

Departure from Kansas—The Ride thro' Missouri—Reception at St. Louis—Mr. Lincoln at Springfield—The Great Demonstration at Chicago.

ST. LOUIS, Sept. 30, 1860.

It was a bright, pleasant morning, when we once more turned our faces Eastward. Our ride from Lawrence to Leavenworth occupied six hours, and after dinner, in the latter city, we paid another visit to the Fort, and passed an evening very agreeably there. The Wide-Awakes were out in full force during the evening, and called upon Senator SEWARD at the Planters' House. Friday morning, Gov. SEWARD drove up to Atchison. Gen. NYE accompanied him, while the rest of the party took the steamboat for the same point. The Missouri, at its present low stage, is a remarkable looking stream. It fairly bristles with snags and sawyers, and nearly its whole bed seems to be occupied by sand bars. In some places there is a mere thread of a channel, with scant three feet water. The boats, however, manage to get along with good loads of passengers and freight, without sticking on the bars. Looking at the Missouri, in its present state, it is difficult to realize the fact that steamers have ascended the stream to a point some *twenty-eight hundred* miles above Leavenworth.

We reached Atchison at 5 o'clock in the afternoon, just as the meeting, which Senator SEWARD and Gen. NYE had been addressing, had adjourned. The reception at Atchison was a very striking one. The whole population turned out to welcome their eagerly expected guests. A mile or two from town, a very handsome cavalcade met the Governor and escorted him to his quarters. Over the bridge which leads into Atchison, a beautiful arch of green boughs had been erected, while on either side, as upon the houses, were wreaths and festoons of oak leaves. The arch bore this significant inscription: "The subduers are themselves subdued." The greeting extended by the people of Atchison to Senator SEWARD was most cordial and enthusiastic. Indeed, at every point of his journey through Kansas, the people, without distinction of party, rose up to do him honor.

Seven o'clock Friday evening found us once more installed in our luxurious quarters at the Patee House, St. Joseph—altogether the best hotel we have met on our entire trip. An early start being necessary on Saturday morning, to reach St. Louis the same night, the party betook themselves to rest at a seasonable hour. On Saturday at 6 A. M., we took leave of St. Jo., and commenced our day's ride of 305 miles to St. Louis. The first 135 miles was over the Hannibal & St. Jo. R. R. At Hudson we left this road and took the cars of the Northern Missouri R. R., which, starting from St. Louis, extends 170 miles to its intersection with the Hannibal and St. Jo. road. Thanks to the courtesy and attention of Major MORIN, the managing agent at St. Jo. of the Northern Missouri R. R., we found a comfortable car set apart for our special accommodation. The road is very straight and level; traverses a beautiful country, and is under excellent management. The weather, too, was pleasant, and nothwithstanding the protracted drought, of which the evidences, in Missouri, as in Kansas, were visible on all sides, we suffered but little annoyance from dust. Our ride, therefore, though a long one, was rapid and pleasant; and shortly before 10 at night we reached the Missouri at St. Charles, some 20 miles by rail from St. Louis. Crossing the river in a steam ferry boat, we took the cars again on the south side, and in half an hour were whirling through the outskirts of the great emporium of the Missouri and Mississippi Valleys. It was Gov. SEWARD's wish to enter the city, unannounced, and proceed quietly to the hotel; and as no notice of his coming, other than a despatch to the proprietor of Barnum's to retain rooms for the party, had been sent before, we none of us anticipated any demonstration on our arrival. This opinion was justified by the state of the weather; for the clouds, which had been gathering all the forenoon, began to distill the long-wished for and much-needed rain. But we learned at St. Louis that no matter what the hour of the day, or night, and no matter what the state of the weather, "the irrepressible conflict" still rages and the inevitable "Wide-Awakes" are always on hand. At the station our party was taken in charge by a committee of the Republican press and the Free Democratic Club, placed in carriages, and escorted by 200 "Wide-Awakes" and a very fine German band, to our quarters at Barnum's Hotel. It was nearly midnight when we reached there, but late as was the hour and though the rain fell fast, a large crowd had collected in and around the hotel to see and hear Gov. SEWARD. In reply to numerous calls, Senator SEWARD appeared upon the balcony, and was received with round after round of the heartiest cheering. When quiet was restored, he addressed the gathering in a few brief remarks, characterized by his usual earnestness and directness, and more positive and emphatic, if possible, in the assertion of his strong Free Labor principles, than even his speech on the historic soil of Lawrence. But ultra as the New York "Union-Savers" would pronounce his doctrines, they were none too bold, or too affirmative, for the true and tried Republicans of St. Louis, who applauded to the echo every humane and generous sentiment that fell from Senator SEWARD's lips.

We spent a quiet Sunday in St. Louis. The rain fell heavily all day, but though it kept us in doors and prevented us from seeing anything of the city, we were all glad to see the thirsty earth so plentifully refreshed after its long drought.

CHICAGO, Oct. 3d, 1860.

Monday morning, bright and early, just as the sun peered above the eastern horizon and gilded the steeples and house-tops of St. Louis, we crossed the broad Mississippi to take the cars of the St. Louis, Alton and Chicago R. R. From the ferry-boat we had a fine view of the city, which impressed us most favorably. Undoubtedly St. Louis is destined to be the great inland city on the American Continent, and superior to only one or two of the Atlantic cities in wealth, population and prosperity. As Free State after Free State grows up on the western borders of Missouri, St. Louis will advance more and more rapidly in the grand career which awaits he, until she occupies, uncontested, the throne of the West.

The cars on the St. Louis, Alton and Chicago R. R. were rather too crowded for comfort; there being many on the train going to Chicago to attend the grand demonstration of the 2d, in honor of Senator SEWARD.—Passing through Alton, we were reminded of the martyr LOVEJOY, murdered by a Pro-Slavery mob for maintaining FREE principles—the same principles which now, thank God, are predominant in half of the States of this Union and making rapid progress in the other half;—as witness, already, Delaware, Maryland, Missouri, Kentucky, Virginia and Tennessee.

From Alton to Springfield our route lay through a very handsome, well-improved country; presenting, especially in the thrifty look of the farm-houses and frequent villages, a marked contrast with Missouri. In point of natural advantages there is no great difference between Missouri and Illinois. Each can boast of a prolific soil and a genial climate; but Illinois *is* a *Free* State, while Missouri still suffers under the stigma and blight of SLAVERY. But the "good time is coming" when the people of Missouri will, of their own accord, as they alone can do, eradicate this ill-weed, and sow, in its stead, the good seed of FREEDOM. As we approached Springfield—the home of the next President of the United States—the thunder of cannon saluted our ears, and when we stopped at the station the cars were instantly besieged by a multitude of people, all clamorous for "SEWARD." Before he could get out, Senator TRUMBULL, the faithful representative of Illinois in the Upper House of Congress, entered the car in in which Gov. SEWARD's party were. Immediately behind him, but towering over all his fellows, came "Honest Old Abe," a smile of hearty welcome lighting up his speaking face, as he shook hands with Gov. SEWARD and expressed his satisfaction at meeting him in Springfield.

But the people outside were too impatient to see and hear the New York Senator, to admit of any long talk, and so, taking Senator TRUMBULL's arm, Gov. SEWARD stepped upon the platform of the car. The shout that went up to the heavens, from two thousand enthusiastic Republicans, when Mr. SEWARD made his appearance, might have been heard for miles away. He was evidently moved by the heartiness and sincerity of the greeting, and expressed his acknowledgments in eloquent terms. He told the Springfield people, the neighbors of Mr. LINCOLN, that in the course of his long journey, he had met with *no doubtful State;* and that his own native State of New York would, in November next, in spite of any and all possible combinations, or coalitions, give *sixty thousand majority* for LINCOLN and HAMLIN. At the close of Gov. SEWARD's brief remarks, as at the commencement, cheers, loud and long, went up from the assembled multitude. The few minutes that remained of our stop at Springfield were improved by the party in taking a short walk up one of the principal streets, under the lead of Mr. LINCOLN. We needed not to be told, after seeing "Honest Old Abe" among his neighbors and fellow-citizens, that where he is best known, he is best appreciated and most liked.

Leaving Springfield soon after 11 o'clock, amid the parting cheers of the "Wide Awake" Republicans, we rode swiftly on toward Chicago. At every station, there was the usual crowd of people, anxious to catch a glimpse of, or to hear a word from, Gov. SEWARD; but the stops, fortunately, were so short, that there was no time for a "talk." About 20 miles from Chicago, a committee of gentlemen from that city—among whom were CHARLES L. WILSON, the popular and capable editor of the *Journal*, Senator JUDD, Hon. ISAAC N. ARNOLD, the Republican candidate for Congress, and other prominent men—met and took captive our whole party. Arriving at the depot, we found the "Lincoln Rangers," a splendid body of mounted men, ready to escort Senator SEWARD to the quarters assigned him at the Tremont House, where we were all soon comfortably cared for.

Of the inspiriting scenes and magnificent popular demonstration in Chicago on Tuesday, the readers of the SENTINEL have already had very full and graphic accounts. In point of numbers, character and enthusiasm, I have never seen the assemblage surpassed, while the torchlight procession of Wide-Awakes, Lincoln Rangers, &c., in the evening, was the most brilliant affair of the kind ever known in the West. For more than two hours, the whole city seemed ablaze with torchlights, fireworks and illuminations, while the crowds on the side walks, upon the buildings, at the doors and windows, and in every available position to get a view of the imposing spectacle, were something wonderful to see. There could not have been less than ONE HUNDRED THOUSAND PEOPLE along Clark street, as the procession moved down that handsome avenue to the North Side. Marching at quick step, two, four and six abreast, the column was just one hour in passing the point where I stood, and at that time several companies from abroad had been obliged to leave in order to take the night trains for home. The number in procession was variously estimated by the Marshals as from *seven to ten thousand.*

Among the many illuminations, none showed to better advantage than that of the Tremont House. Both fronts of this spacious edifice were covered with parti-colored lamps, while from each balcony two brilliant stars blazed forth upon the wondering and admiring multitude in the streets.—Messrs. GAGE, BROTHER & DRAKE, the popular landlords of the Tremont, got up the illumination of their own accord, and as a compliment to Senator SEWARD, a guest in their house. It was creditable alike to their taste and liberality; nor were they sparing in other good offices, being most assiduous in their efforts to promote the comfort and enjoyment of Senator SEWARD and his party during their sojourn in Chicago.

Republican Rally at Kilbourn City.

Correspondence of the Sentinel.

KILBOURN CITY, Oct. 2, 1860.

MESSRS. EDITORS:—Yesterday was a day long to be remembered by the citizens of Kilbourn City, for never before was there so large and enthusiastic a gathering of the masses in our village. There were about two thousand present, including a large delegation of Wide-Awakes from Portage.—This for a new country, thinly settled, and considering that it rained hard all the day and night previous, and that the morning was lowering and unpleasant, we think a very fine turn out. It astonished our Democratic friends not a little.

Among the incidents of the day was the raising of a pole 120 feet high, bearing a LINCOLN and HAMLIN flag. In the procession was a wagon, drawn by 20 yoke of oxen, and another which carried two men engaged in "splitting-rails" and throwing them overboard—the rails being picked up immediately and carried along in the procession. Still another wagon, which was saluted with cheer after cheer, carried fifteen elderly ladies, some knitting and some sewing.

The dinner, prepared by the ladies of our village, was pronounced on all hands to be worthy of the occasion. After the repast, the crowd listened for two hours to the enchaining eloquence of Senator DOOLITTLE. A grand torch light procession in the evening and an eloquent address from Mr. EMORY, of Portage, concluded the exercises. Altogether the meeting was a grand affair, and in number and display far exceeded our expectation.

LETTER FROM MINNESOTA.

State Fair—Grand Exhibition—Cassius M. Clay's Speeches on Agriculture, Politics, Douglas, &c., &c.

Correspondence of the Sentinel.

ST. ANTHONY, Sept. 29, '60.

MR. EDITOR:—On Wednesday, Thursday and Friday of this week,—September 26th, 27th and 28th,—the State Fair was held at Fort Snelling, at the junction of the Mississippi and Minnesota Rivers; a beautiful and picturesque spot, admirably adapted to such an exhibition.

Here were assembled more than ten thousand people. The variety of agricultural products was extensive. Some of them,—the roots,—were enormous in size. We noticed one potatoe which weighed two and a half pounds; tomatoes, one and a half lbs.; squashes,—why really, said a wag, we do not know the weight, as there are none of the FAIRBANKS railroad platform scales here! The stock was fine. Sheep of every variety in a most healthy condition; this is a capital climate for wool-growing; better than Vermont, because the weather is subject to less frequent changes, and is dryer and less snow in the Winter. The cattle were of the finest caste, and the show of swine was all that could be desired. There was one porker, a king of his tribe, who came in a carriage, whose weight was about 800 pounds, and who at a single sight, cured hundreds of ladies of their love of such gross food, and the gentlemen declared they would hereafter prefer roast lamb and sirloin steaks.

Everything usual on such occasions was exhibited. Butter, cheese, bread, needlework, painting—everything which was desirable to exhibit the skill of the ladies.—Really more admiration was expressed by the gentlemen for the useful than the ornamental, as good butter and bread was preferred to music and painting.

But the great attraction was the MAN who had consented to deliver the address. He whose very name is a watch word—a tower of strength to the friends of free labor and of the emancipation of the laboring classes, *white* as well as *colored*, throughout this Union,—CASSIUS M. CLAY, of Kentucky, who like Marshal NEY, is "the bravest of the brave!"

When he came on the stand to speak, he was greeted with cheers that filled the deep valleys of the two great rivers, and came echoing back from the far off bluffs. He spoke nearly two hours, and when he had spoken eloquently and beautifully of the vital forces that sustain, increase and perfect vegetable as well as animal life, it was said, "well CLAY is a refined, educated as well as practical agriculturalist and gentleman; yes, and his heart is bigger than that of the largest bullock on the grounds!"

In the evening, after his address, he came to St. Anthony, at the request of the Republicans, and delivered a political speech at Stanfield's Hall, to a crowd of some fifteen hundred people, one quarter to one third of whom were Democrats of the DOUGLAS and BRECKINRIDGE factions. (There are probably two or three DOUGLAS men to one of the other factions.) Such a history of politics and politicians—Democratic, and such an anti-slavery speech, so perfectly portraying the demands and requirements, and more than autocratic despotism of the slave power, was never delivered in Minnesota. He took up and wielded the sword of truth in such a manner as to cut down whole ranks of the dough-faces, who, weak, flexible souls, are ever ready to do the bidding of their slave masters. He showed, in unmistakable language, the demands of the King, who has the power of life and death over the slave.

He showed it had ruled this nation during its whole existence; that the Legislative, Judicial and Executive power of the government had ever been, and still was, under the power of the Slave King. He said a man formed in the image of God, with an immortal soul, denied by the merciless institution of any right to himself, his wife, or children, hunting for freedom, shuts himself up in a tight box with air holes so small, to avoid detection, that he can scarcely breathe, while transported to a distant city; the box is opened and the poor emaciated, starving, half-suffocated slave breathes once more fresh air, and as he supposes the *free* air of freedom. When, lo, a hue and cry is raised, "a slave has escaped. He must be a slave, he came from a Southern city." When, lo, the Army and Navy of this great nation is put in requisition to seize and take back to slavery the man who loved liberty better than bondage.

He used strong arguments clothed in strong language. He is a strong-minded man, a perfect specimen of an old Roman, who, though he loved Rome, yet he loved *liberty more.* After discussing the slave-power, he took up "the little man who cannot take the eighteen inch step, required by the army regulations," and handled him without mittens; showed his political windings, twistings and somersets exhibited in his life acts and speeches, and flayed him alive. He crushed him like a mouse between two great mill-stones, to such an extent that tender-hearted Republicans pitied him, and some said, "poor *Stephen is a Martyr*, crushed with a maul hewn out by the Rail-Splitter, and wielded by the Giant CASSIUS M. CLAY."

CHIPPEWA.

Senator Doolittle at Juneau.

Correspondence of the Sentinel.

JUNEAU, Sept. 26, 1860.

EDITORS SENTINEL:—Senator DOOLITTLE addressed a crowded and enthusiastic meeting at this place last evening. Every one was delighted and instructed by his address,—even the Douglasites forgot to swear. Of the speech it is enough to say the manner was beyond criticism; of its substance, all admit that a more compact, logical, yet eloquent discussion of the great issues of the day, was never presented to the voters of the county of Dodge; of its effect, November, and a lamenting LARRABEE, will tell the story.

Judge DOOLITTLE has, by his efforts here, but added new laurels to his national fame as a statesman and an orator,—a reputation and fame already safe in the hearts of the people.

Among the voters of this district he is doing a yeoman's work, and the defeat of "the Horicon Know-Nothing," fated by the gods and hoped for by man, is as sure, in this district, as that the sun will rise and set.—So mote it be!

WAUSAU, WIS., Sept. 28, '60.

A German named CHAS. Do[illegible] died, while lying drunk in the street, last evening, after a day's debauch. The deceased was about 28 years of age, unmarried, and a habitual drunkard. He leaves an aged mother and a younger brother. An inquest was held to-day. I have not heard the verdict; but of course no one is ever to blame for these things.

REPUBLICAN LEGISLATIVE NOMINATIONS.—The Republicans of the Fifth Assembly District of Fond du Lac county, have renominated Hon. W. T. BROOKS for the Assembly. Mr. B. was last winter a member, and proved a competent and useful representive. We are glad to see that his constituents propose to return him.

Dr. WILLARD, of Lake Mills, is the candidate of the Republicans, for the Assembly, in that district. Dr. W., we understand, is a man of ability and a good speaker. He is popular in his district, and will be elected by a large majority.

The Republicans of the Southern Senatorial District of Jefferson county, have nominated EDWIN MONTGOMERY, of Farmington, for State Senator.

HENRY G. WEBB, of Waushara, is the Republican nominee for Assemblyman in the districts comprising the counties of Waupaca and Waushara.

Affairs in Grant County.

Correspondence of the Sentinel.

GRANT CO., Sept. 24, 1860.

EDITORS SENTINEL:—As the editors of the *Grant County Herald*, in their issue of the 15th ult., have seen fit to dispute some of the statements made in an article of mine published in the SENTINEL some days ago, entitled "Affairs in Grant County," justice to you and to myself requires of me a brief notice of *their* statements. And by way of explanation, I will say that this matter of the division of Grant county is a thorn in the sides of the editors of that miscellaneous sheet, the *Herald*. Because I mentioned as a matter of news, that there was a project on foot to divide the county—*and consequently, to divide the county printing.* They attempt to throw discredit upon some of my minor statements, thinking that if they can induce people to believe I have falsified facts in one instance, I have done it in all.

I shall not attempt to notice all of the points made by the editor of the *Herald*, because I do not wish to burden your columns with a local controversy, and because they are not of sufficient importance. The people of the county can judge between us.

The editors of the *Herald* deny that there are 250 to 300 cases on the docket at every term, and assert that the causes are all disposed of which are ready for trial. By looking over a file of the Grant County *Witness*, we find that at the *regular* term of the Circuit Court of that county, the calendar stood as follows:—Causes in court, 201; issues, 44; arguments, 18; criminals, 17; total, 280. Now, every person who knows anything about it, knows that these arguments, etc., are, in reality, trials, and that they consume as much time as ordinary cases. At the above mentioned term of the Court the case of TAYLOR *vs.* TOBIE, I think, was continued after the following manner: When the cause was called, the plaintiff announced himself ready for trial, as did the defendant, but the latter demanded a jury, and why? because, as Judge COCHRAN said, "there was no time to get a jury," and so the case was "continued by order of the court."

The 37th case, GAINNELL *vs.* GOODWIN, was not reached, although both parties announced themselves ready for trial. And so it was in a number of cases. Both parties announced themselves ready to proceed, and begged that they might be heard, waiving all right to jury trials and stipulating to leave the matter entirely with the Judge.—If the number of cases on the docket is not so burdensome, why was it necessary to hold a special term only a few days ago?

In speaking of the salaries of the county officers, the *Herald* says: "Never a sheriff of Grant County has been able to save a dollar over expenses; whoever is sheriff serves the people but for the name." Who believes such nonsense? Who swallows the story that the sheriff of a County with 35,000 inhabitants, never can save a dollar over expenses? What makes the office so expensive? But this assertion needs no refutation. It bears the brand of falsehood on its face. How comfortable the eleven defeated aspirants to this office must now feel.

Again the *Herald* says: "The political references to DEWEYS and the Democratic party in this County being much divided is untrue, except so far as refers to Ex-Gov. DEWEY, who probably supports BRECKINRIDGE. N. P. DEWEY, supports DOUGLAS, *we think.*" Now Mr. Editor, here is a plain contradiction in one breath. They tell you that it is untrue that the DEWEYS are very much divided and in the next, that one supports BRECKINRIDGE and the other DOUGLAS! I did not say that the DEWEYS were very much divided; on the contrary, I said that they both supported BRECKINRIDGE, and when the editor of the *Herald* asserts upon the authority of either of these gentlemen that such is not the case, I will notice their statement. The other statements of the *Herald*, I shall not notice, because they are gotten up in such a clumsy, bungling manner, that they bear their own antidotes. If the *Herald* has no better reputation away from home than it has in Grant County, for telling the truth, I should not have noticed it at all.

Yours, &c., W. S.

Carl Schurz in Toledo—Enthusiastic Reception—He Makes a Speech.

The Republicans of Toledo were gratified to learn this morning, that, by an accidental detention of the cars, Carl Schurz, the noble and eloquent advocate of Republicanism, would be detained for a few hours in this city. Mr. S. arrived this morning from Ft. Wayne, on his way to Erie, Pa., where he is to speak this evening. The train being detained in some way, he failed to make the connection by the early train, and was forced to remain here until 11 o'clock this forenoon.

The news of his arrival must have traveled fast; for when he called upon us this morning, he had been in the office but a few minutes before it was filled with his enthusiastic countrymen, and other admiring Republicans, all anxious to greet and see the most eloquent defender of Republican principles.

Brief as the time of his stay necessarily was, it was determined to call a meeting at the Middle Ground at 1 o'clock, to give all who wished it an opportunity to see and hear Carl Schurz. Circulars were scattered after 9 o'clock, and yet, on this short notice, the hour and the man found thousands of enthusiastic Republicans on the spot. The Union Band, escorting the speaker, was followed by a long procession to the ground.

Mr. Schurz was introduced to the people by Wm Kraus, Esq., and was received with hearty cheers.

When the cheering had subsided he briefly explained how he had accidentially been detained here, and although not in search of his mother, had been placed in circumstances which seemed likely to "betray him into a speech." He then opened with a brief, pointed, and scathing expose of the slander, published in the Democratic papers, (repeated in the Toledo *Times*,) charging him with speaking disrespectfully of the Declaration of Independence. He said that in reviewing the position taken by Mr. Douglas in his Springfield speech—in which that artful dodger had said that the Declaration of Independence meant that only *white* men were born free and equal, and not *all* white men, but only British subjects; that it meant that a British subject born in this country was equal to one born in England—he characterized Judge Douglas's definition of the Declaration as a "diplomatic dodge." It was Mr. Douglas's definition that he had stigmatised in contrast to that glorious document framed by our fathers, which MEANT what it said, "that all men were born free and equal." We do not pretend to give Mr. S.'s eloquent language—it would be impossible since we write from memory—but those Douglas men who heard him must, if they had aided in retailing that pitiful slander have felt rather mean about the time he got through with his exposition of the glaring, impudent and slanderous fraud.

Passing from this topic he alluded to our public school building, which he had visited this morning, speaking of ours as perhaps the most perfectly arranged and systematized school in the country, and gave the *Times* a stinging reminder of its endeavors to discredit the system, and to throw obstacles in the way of its operations.

He then alluded to his continuous labors in Pennsylvania and elsewhere, and the bright prospects of success which attended the Republican cause in this campaign. He had been speaking almost continually since the Chicago Convention, which put in nomination that great and good man, Abraham Lincoln, for the Presidency, and he expected to continue those labors until his election in November. Speaking in the open air was painful to him, and he must be excused from making any continued remarks.

The audience, however, had no idea of excusing him, and insisted on his completing "the betrayal;" and he was forced to continue. Speaking of the ridiculous pretense of dissolving the Union, he said he had travelled extensively over this country this season; he had found very few men frightened by this talk, *but no ladies.* Mr. Schurz, after humorously alluding to the latest attempts to dissolve the Union, concluded by referring to the only real danger to our country, which he considered to be the falling away of our people from the true democratic feeling and doctrines of the fathers, in obedience to the demands of the South. There was a glorious significance in representing the Union by stars on our National Flag.—So long as the vital principle of true freedom, of humanity and of right, acted as the central sun of our system, the States would be bound by indissoluble laws in their appropriate courses. Destroy that central sun, trample out those glowing principles, extinguish our great lights, and the controlling power thus withdrawn the whole system would fall in jarring discord to irretrievable ruin.

The speech was a most eloquent one, so much so that we feel ashamed to attempt any description of it, knowing how inadequate our efforts must prove, under the circumstances. The speaker was frequently interrupted by applause, and cheers which made the welkin ring followed the conclusion of his remarks.

Mr. S. left immediately after on the 11 A. M. train, leaving behind him the most favorable impressions. It is true, as Mr. S. said in the course of his remarks, that he is "almost as well abused as if he were him self a candidate for the Presidency." No man in this country has in so short a time, and under such adverse circumstances, gained such a national reputation as a political orator. We have few equals and none that are his superiors in true eloquence and thorough knowledge of our political history and our institutions.

IMPORTANT QUERY.—Do the Sewing Machines so much advertised lately as "Lock-Stitch," make the old shuttle stitch non-elastic and fastened at neither end? or do they now make the Grover & Baker Stitch which is elastic and fastened at both ends? The public should take care not to be misled by a name *perhaps* assumed without being *deserved.* oct4k174lt.

Bryan's Tasteless Vermifuge.

SAVED! SAVED!

Physicians in vain came again and again,
The dear little angel grew worse.
"'Tis a fatal disease, and we can't give her ease,"
Said the doctors to mother and nurse.
But the nurse in plain terms said, "'tis nothing but worms."
And a cure pointed out right away;
BRYAN'S VERMIFUGE mild, then they gave to the child,
And behold! she was well the next day.

Depend upon it, mothers, it will give rest to yourselves, and relief and health to your infants. Perfectly safe in all cases.

This valuable preparation is the prescription of one of the most experienced and skillful Female Physicians in New England, and has been used with never failing success in millions of cases.

We believe it is the best and surest remedy in the world, in all cases of Dysentery and Diarrhea in children, whether it arises from teething or any other cause.

If life and health can be estimated by dollars and cents, it is worth its weight in gold.

Millions of bottles are sold every year in the United States. It is an old and well tried remedy.

Dr. Jas. McClintock's Asthma Remedy.

THERE IS NO DISEASE MORE DISTRESSING than Asthma. It "murders sleep" and induces a fear of death by suffocation, that is perfectly horrible. Now, here is a specific which forthwith removes the most painful symptoms, which always in the end effects a cure. Not to resort to it is madness. For whooping cough it is also infallible.

Price 50c. Sold by Henry Fess, Jr., and other druggists. sept19d1m

Judson's Mountain Herb Pills.

HOW STRANGE AND WONDERFUL it often seems to us that a medicine composed of simple mountain herbs and roots, should so certainly search out and cure disease. How surprising that the Indians should know and preserve so long and well a secret that has escaped the search of the greatest physicians the world has ever seen. True, the ancient inhabitants of Mexico were a strange race, found by the Spaniards living in large cities, and allowing for their strange customs and religion as well civilized as their conquerors. In the words of a writer of some celebrity, "They have perished from the earth, their cities are gigantic piles of ruins, their Kings and Princes so mighty in their life, are forgotten; their ruins and their medicine alone are left." The united testimony of all intelligent persons is that JUDSON'S MOUNTAIN HERB PILLS are the most successful medicine in the world in curing disease.

THE

SINGER SEWING MACHINES!

The marked and ever extending popularity of

Singer's Sewing Machines!

BOTH IN AMERICA AND EUROPE, is such as best to establish their superiority over all others in the market. Sewing Machines—*so called*—may be bought, it is true, for a smaller amount of dollars, but is mistaken economy to invest anything in a worthless or unreliable article, and those who will do so must abide the consequences.

SINGER'S NEW FAMILY MACHINES.

In order to place THE BEST FAMILY MACHINES IN THE WORLD within the reach of all we have reduced our LETTER A, OR TRANSVERSE SHUTTLE MACHINES, beautifully ornamented, to $50.

SINGER'S NO. 1 AND 2 STANDARD SHUTTLE MACHINES.

Both of very general application and capacity, and popular both in the family and the manufactory. Prices reduced, respectively from $125 and $150 to $90 and $100.

SINGER'S NO. 3 STANDARD SHUTTLE MACHINE,

For carriage makers and heavy leather work. Price complete, $125. Also, to complete the list an

ENTIRELY NEW ARTICLE.

Unequalled for manufacturing purposes: NOISELESS, RAPID, and capable of every kind of work! Price, (including iron stand and drawers,) $110—cheaper at that in view of its value than the machines of any other maker as a gift.

All of Singer's Machines make the interlocked stitch with two threads which is the best stitch known. Every person desiring to procure full and reliable information about Sewing Machines, their sizes, prices, working capacities, and the best methods of purchasing can obtain it by sending for a copy of J. M. Singer & Co.'s *Gazette*, which is a beautiful pictorial paper entirely devoted to the subject. It will be supplied gratis.

☞ Transportation will be added to the above prices, in all cases.

The physicians in each city, town or village in the State are solicited to apply to the undersigned, who will give them a bottle free of charge, to try before prescribing.

Dose for an infant six weeks old, one teaspoonful, diluted in two tablespoonsful of cold water, and given by the teaspoonful every five minutes until relief is affected.

Adults and children in proportion.

The want of pure Medical Brandy has long been felt in this country.

The properties contained in this Brandy are more stringent than French Brandies. This the manufacturers claim are the merits, and challenge the world to disprove these facts.

THE GREATEST

MEDICAL

DISCOVERY

OF THE AGE.

MR. KENNEDY, OF ROXBURY, HAS discovered in one of our common pasture weeds a remedy that cures

EVERY KIND OF HUMOR.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two or three bottles will clear the system of biles.

Two bottles are warranted to cure the worst canker in the stomach.

Three or five bottles are warranted to cure the worst kind of Erysipelas.

One or two bottles are warranted to cure all humor in the eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruptions of the skin.

Two or three bottles are warranted to cure the worst kind of ringworm.

Two or three bottles are warranted to cure the most desperate cases of rheumatism.

Three or four bottles are warranted to cure salt-rheum.

Five or eight bottles will cure the worst cases of scrofula.

One or three bottles are warranted to cure the worst cases of dyspepsia. I know from the experience of thousands that it has been caused by a canker in the stomach.

One or two bottles are warranted to cure sick headache.

One or two bottles are warranted to regulate a costive state of the bowels.

One or two bottles will regulate all derangement of the kidneys.

Four to six bottles has cured the worst cases of dropsy.

By strictly following the directions in the pamphlet around each bottle, and a judicious application of the

SALT RHEUM OINTMENT,
SCROFULA OINTMENT and
HEALING OINTMENT,

every sore and ulcer, of whatever kind, or nature, except cancer, that has taken root, is perfectly and permanently cured.

ROXBURY, Mass.

DEAR MADAM:—The reputation of the Medical Discovery, in curing all kinds of humors, is so well established, by the unanimous voice of all who have ever used it, that I need not say anything on the subject, as the most skillful physicians and the most careful druggists in the country are unanimous in its praise.

In presenting the Medical Discovery to your notice, I do it with a full knowledge of its curative powers, in relieving all, and curing most of the diseases to which you are unfortunately so liable. That most excruciating disease to an affectionate mother

Nursing Sore Mouth

is cured as if by a miracle; your own temper is restored to its natural sweetness, and your babe from short and fretful naps to calm and sweet slumbers; and the Medical Discovery becomes a fountain of blessings to your husband and household.

In the more advanced stages of

Canker

it extends to the stomach, ensuing,

Dyspepsia

which is nothing but canker on the stomach; then on the intestines and

Kidneys

creating a sinking, gone feeling, and an indifference even to the cares of your family.

Your stomach is

Raw and Inflamed,

your food distresses you, and you can only take certain kinds, and even of that your system does not get half the nourishment it contains, as the acrimonious fluid of the canker eats it up; then your complexion loses its bloom and becomes sallow or greenish, and your best day is gone. For want of nourishment your system becomes loose and flabby, and the fibres of your body become relaxed. Then follows a train of diseases which the Medical Discovery is peculiarly adapted to

Cure;

Palpitation of the heart, pain in the side, weakness of the spine and small of the back, pain of the hip joint when you retire, irregularity of the bowels, and also that most excruciating of diseases the

Piles.

How many thousands of poor women are suffering from this disease and pining away a miserable life, and their next door neighbor does not know the cause. I wish to impress on your mind that good old proverb, "an ounce of prevention is better than a pound of cure." In the

MEDICAL DISCOVERY

you have both the preventative and the cure, with this great and good quality, that it will never, under any circumstances, do you an injury. Yours truly, DONALD KENNEDY.

VINEGAR! VINEGAR!

THE MANUFACTURE OF VINEGAR. Its Theory and Practice, with especial reference to the quick process: by Charles M. Wetherill. A great part of the contents of this work may be found scattered over the several treatises of pure and applied chemistry; but on the other hand, there is no concise, reliable American work accessible to the inexperienced, or practical vinegar manufacturer, in which he can find what information is needful for carrying out his process to the best advantage.

Vinegar making will continue to be an extensive and widely diffused manufacture, and its importance will increase as our country becomes more widely occupied. This fact is self-evident, since a large portion of the freight upon each barrel of vinegar is paid upon the universally-to-be-had water.

LOSS OF THE STEAMER LADY ELGIN on Lake Michigan—Hundreds of lives sacrificed. Every life might have been saved by using the Delano Life-Preserving Garments. One of our Inflated Vests, or Ladies' Waists will sustain three persons any length of time. Over six hundred captains of vessels sailing from the port of New York, also many officers in the navy, use and recommend them. Call at our store and see their letters. MOFFAT'S

Life Pills and Phœnix Bitters!

THESE MEDICINES HAVE NOW been before the public for a period of THIRTY YEARS, and during that time have maintained a high character in almost every part of the Globe, for their extraordinary and immediate power of restoring perfect health to persons suffering under nearly every kind of disease to which the human frame is liable.

The following are among the distressing variety of human diseases in which the

VEGETABLE LIFE MEDICINES

Are well known to be infallible:

DYSPEPSIA, by thoroughly cleansing the first and second stomachs, and creating a flow of pure, healthy bile, instead of the stale and acrid kind; FLATULENCY, Loss of Appetite, Heartburn, Headache, Restlessness, Ill-Temper, Anxiety, Languor, and Melancholy, which are the general symptoms of Dyspepsia, will vanish, as a natural consequence of its cure.

COSTIVENESS, by cleansing the whole length of the intestines with a solvent process, and without violence; all violent purges leave the bowels costive within two days.

FEVERS of all kinds, by restoring the blood to a regular circulation, through the process of respiration in such cases and the thorough solution of all intestinal obstruction in others.

The Life Medicines have been known to cure RHEUMATISM permanently in three weeks, and GOUT in half that time, by removing local inflammation from the muscles and ligaments of the joints.

DROPSIES of all kinds, by freeing and strengthening the kidneys and bladder: they operate most delightfully on these important organs, and hence have ever been found a certain remedy for the worst cases of GRAVEL.

Also WORMS, by dislodging from the turnings of the bowels the slimy matter to which these creatures adhere.

SCURVY, ULCERS and INVETERATE SORES, by the perfect purity which these LIFE MEDICINES give to the blood, and all the humors.

SCORBUTIC ERUPTIONS and BAD COMPLEXIONS by their alterative effect upon the fluids that feed the skin, and the morbid state which occasions all eruptive complaints, sallow, cloudy, and other disagreeable complexions.

The use of these Pills for a very short time will effect an entire cure of SALT RHEUM, and a striking improvement in the clearness of the skin. COMMON COLDS and INFLUENZA will always be cured by one dose, or by two in the worst cases.

PILES.—The original proprietor of these Medicines, was cured of Piles, of 35 years standing by the use of the LIFE MEDICINES alone.

FEVER AND AGUE.—For this scourge of the western country, these Medicines will be found a safe, speedy, and certain remedy. Other medicines leave the system subject to a return of the disease—a cure by these Medicines is permanent—TRY THEM, BE SATISFIED AND BE CURED.

BILIOUS FEVERS AND LIVER COMPLAINTS.—General Debility, Loss of Appetite, and Diseases of Females—the Medicines have been used with the most beneficial results in cases of this description: King's Evil and Scrofula, in its worst forms, yields to the mild yet powerful action of these remarkable medicines. Night Sweats, Nervous Debility, Nervous Complaints of all kinds, Palpitation of the Heart, Painter's Colic, are speedily cured.

MERCURIAL DISEASES.—Persons whose constitutions have become impaired by the injudicious use of Mercury, will find these Medicines a perfect cure, as they never fail to eradicate from the system all the effects of Mercury, infinitely sooner than the most powerful preparations of Sarsaparilla.

AN APERIENT AND STOMACHIC preparation of IRON purified of Oxygen and Carbon by combustion in Hydrogen. Sanctioned by the highest Medical authorities, both in Europe and the United States, and prescribed in their practice.

The experience of thousands daily proves that no preparation of iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable case. Innoxious in all maladies in which it has been tried, it has proved absolutely curative in each of the following complaints, viz:

In Debility, Nervous Affections, Emaciation, Dyspepsia, Constipation, Diarrhœa, Dysentery, Incipient Consumption, Scrofulous Tuberculosis, Salt Rheum, Mismenstruation, Whites, Chlorosis, Liver Complaints, Chronic Headaches, Rheumatism, Intermittent Fevers, Pimples on the Face, &c.

In cases of General Debility, whether the result of acute disease or of the continued diminution of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no description nor written attestation would render credible. Invalids so long bed-ridden as to have become forgotten in their own neighborhoods, have suddenly re-appeared in the busy world, as if just returned from protracted travel in a distant land. Some very signal instances of this kind are attested of female sufferers, emaciated victims of apparent marasmus, sanguineous exhaustion, critical changes, and that complication of nervous and dyspeptic aversion to air and exercise for which the physician has no name.

In Nervous Affections of all kinds and for reasons familiar to medical men, the operation of this preparation of iron must necessarily be salutary, for, unlike the old oxides it is vigorously tonic, without being exciting and overheating; and gently, regularly aperient, even in the most obstinate cases of costiveness, without ever being a gastric purgative, or inflicting a disagreeable sensation.

It is this latter property, among others, which makes it so remarkably effectual and permanent a remedy for Piles, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency which forms them.

In Dyspepsia, innumerable as are its causes, a single box of these Chalybeate Pills has often sufficed for the most habitual cases, including the attendant Costiveness.

In unchecked Diarrhœa, even when advanced to Dysentery, confirmed, emaciating, and apparently malignant, the effects have been equally decisive and astonishing.

In the local pains, loss of flesh and strength, debilitating cough, and remittent hectic, which generally indicate Incipient Consumption, this remedy has allayed the alarm of friends and physicians, in several very gratifying and interesting instances.

In Scrofulous Tuberculosis, this medicated iron has had far more than the good effect of the most cautiously balanced preparations of iodine, without any of their well-known liabilities.

The attention of females cannot be too confidently invited to this remedy and restorative, in the cases peculiarly affecting them.

In Rheumatism, both chronic and inflammatory—in the latter, however, more decidedly—it has been invariably well reported, both as alleviating pain and reducing the swellings and stiffness of the joints and muscles.

In Intermittent Fevers it must necessarily be a great remedy and energetic restorative, and its progress in the new settlements of the West, will probably be one of high renown and usefulness.

No remedy has ever been discovered in the whole history of medicine, which exerts such prompt, happy, and fully restorative effects. Good appetite, complete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use.

Put up in neat flat metal boxes containing 50 pills, price 50 cents per box; for sale by Druggists and dealers. Will be sent free to any address on receipt of the price. All letters, orders, etc., should be addressed to

Ayer's Cathartic Pills.

THE SCIENCES OF CHEMISTRY and Medicine have been taxed to their utmost to produce this best, most perfect purgative which is known to man. Innumerable proofs are shown that these Pills have virtues which surpass in excellence the ordinary medicines, and that they win unprecedentedly upon the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action and impart healthy tone with strength to the whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated they are pleasant to take; and being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliabilities of my remedies, while others have sent me the assurance of their conviction that my Preparations contribute immensely to the relief of my afflicted, suffering fellow-men.

The Agent below named is pleased to furnish gratis my American Almanac, containing directions for their use and certificates of their cures, of the following complaints: Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Ulcerous and Cutaneous Diseases which require an evacuant medicine, Scrofula or King's Evil. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstruction of its functions.

Do not be put off by unprincipled dealers with some other pill they make more profit on. Ask for AYER'S PILLS, and take nothing else. No other they can give you compares with this in its intrinsic value or curative powers. The sick want the best aid there is for them and they should have it.

Prepared by Dr. J. C. AYER, Practical and Analytical Chemist, Lowell, Mass.

The prudential committee expressed their determination not to exceed the receipts.—The President, Rev. LATEST NEWS!

BY LAST NIGHT'S REPORT

The Prince at Washington.

WASHINGTON, Oct 3.

Baron Renfrew arrived at four o'clock by special train There were about one thousand spectators at the station, evincing intense anxiety to obtain a view of his person, and being gratified, they greeted his appearance with cheers. Immediately on the arrival of the train, Gen. Cass was introduced to Baron Renfrew by Lord Lyons, when the former said he had the pleasure of welcoming his Lordship to Washington in the name of the President, and with his Lordship's permission he would accompany him to the executive mansion. Gen. Cass, Messrs. Henry and Buchanan, nephews of the President, each formerly his Private Secretary, and on other occasions representing the President's family, several carriages of the President's, together with those of Secretaries —Toucy, Cobb, Thompson and Cass—and Lord Lyons, were waiting to convey the party to the White House.

Lord Renfrew rode thither in company with Gen Cass, Lord Lyons and the Duke of Newcastle. Upon arriving at the mansion where the President was in waiting to receive him, he was presented to him by Gen. Cass and cordially welcomed. Lord Lyons then personated the ceremony of introducing the suite. As these proceedings were private, the gate of the President's grounds were closed against intrusion, and attended by police officers.

It is a noticeable fact that Gen. Cass who, under the theory of the British Constitution, was born a British subject, his nativity being before the treaty of peace, received the Prince in the name of the President; besides he was present at the ceremony of the Prince's mother.

WASHINGTON, Oct. 3.

The dinner party at the President's tonight was prolonged till 10 o'clock. There were present besides the President's family and Royal guests, the members of the Cabinet and their wives. The marine band was in full attendance, playing, among others, the national airs of Britain and America.—The President will, to-morrow give a reception from 12 to 1 in honor of Baron Renfrew.

WASHINGTON, Oct. 4.

Lord Renfrew and suite, including Lord Lyons, accompanied the Secretary of War to the Capitol this morning, and under the escort of Capt. Franklin, Superintendent, and Wm. Walker, Architect of the capitol extension, Mayor Barrett, and Capt. Dunnington, took a hasty survey of all objects of interest.

Between 12 and 1 o'clock, at the reception, the east room of the Executive mansion was crowded with spectators, more so than on any New Year's occasion. The members of the cabinet, the army and navy officers in uniform, were among those present. The Marine Band enlivened the gay, excited and brilliant scene.

The Baron and suite were in a row prominent to all spectators. On his left was Lord Lyons, and on his right the President, who conducted the ceremony of introduction. It was noticed that while he freely shook hands with gentlemen, he took those of ladies only when they were first offered, —a bow from royalty generally sufficed.—Not more than half an hour was thus occupied, and this proved a disappointment.—Even after the party returned, crowds kept excitedly rushing into the mansion; the deafening sound of the music increasing the confusion. Those who were disappointed in not seeing Lord Renfrew in the East Room, were gratified at his presence at a window, in full view of the crowd.

Senator Seward at Cleveland.

CLEVELAND, Oct. 4—9 P. M.

BALTIMORE, Oct. 3.

The Germans and Italians are holding a festival here in honor of Garibaldi. A procession with music, banners, &c., are now marching through the streets.

ONE DAY LATER FROM EUROPE.

Arrival of the Steamer City of Baltimore.

ST. JOHNS, N. F., Oct. 4—9 P. M

The steamship City of Baltimore, from Liverpool, 26th ult., via Queenstown 27th, passed this point at 3 o'clock this P. M.

The steamship Palastine, from Quebec, arrived at Liverpool on the 25th. The steamship Fulton, from New York, arrived at Southampton on the 26th.

Italian affairs were unchanged.

The Garibaldians were concentrated on the highway of Valturoo, preparing to attack the Neapolitans.

The Garibaldians were bombarding Ancona by sea and land, and making further advances in the interior.

The Sardinians continued to advance on the Papal States.

The fortress of Santo Leo had surrendered after some hours firing and was occupied by the Sardinians.

Ancona was bombarded nine hours by the Sardinian vessels without much effect. The reply was vigorous. Later dispatches say the cannonade by land and sea continued but at intervals.

The Sardinians occupied the fortress of Castillon.

The official Roman journal contains Cardinal Antonelli's note claiming the assistance of the Catholic powers.

Garibaldi had concentrated his troops on heights of Oltburg, preparitory to an attack upon the Neapolitans. The Garibaldians had met with some severe reverses near Capua.

New York Matters.

NEW YORK. Oct. 4—9 P. M.

Amos Kendall having recently published a pamphlet, in which he denies that a majority of the directors of the American Telegraph Co. sympathise in the quarrelsome manifesto of Russell & Alden, of the Executive, against the Associated Press, Mr. Russell has to-day published a rejoinder, in which he reasserts, in substance, that a majority of the directors have resolved to break up all associations of the press.

It is hardly necessary to say that all sane men regard Russell & Alden's threats as utterly beneath regard.

The telegraph lines of the New York and New Foundland Telegraph Co., extending from Port Hood, St. Johns to St. John, and Cape Race, N. F, and from Sackville to Charlestown, P. E. I., have been leased for a term of years by the N. Y. Associated Press, under Mr. R. M. Clay, the past and present excellent General Superintendent of the lines. The news arrangement goes into effect the first of November next Much more extended arrangements are being made to intercept the European steamers off Cape Race, with every prospect of obtaining news from a large proportion of the passing steamers, which now number about 200 per. annum, from Europe. Arrangements are also in progress by which the commercial public will have greatly increased and more desirable facilities for transacting European, and other business, over the New Foundland line.

The steamer Glasgow arrived this evening, News unimportant.

Arrival of the Overland Mail.

ST LOUIS, Oct. 4—9 P. M.

The overland mail from San Francisco, Sept. 14th, arrived here last evening at 8 o'clock, with five passengers. Everything is reported quiet along the route.

The names of the men murdered by a party of Mexicans, at Hollandville, near Los Angelos, the circumstances of which were previously reported, are J. T. Williams, late of Milwaukee, and Geo. Langely, of Hebron, Licking Co., Ohio. It did not appear that robbery was the object of the murderers, for nothing was carried from the premises. The unfortunate men were in the service of the mail company at the time the deed was committed.

Bell and Everett Demonstration in Missouri.

ST. JOSEPH, Mo., Oct. 4—9 P. M.

One of the largest political demonstrations ever witnessed in Missouri, is being held here to day by the Bell and Everett party. At an early hour the city was thronged from abroad.

A procession of a mile and a half in length was formed, with bands of music and banners flying, which repaired to the fair grounds. 15,000 people visited the city to-day. There was great excitement and enthusiasm.

Letter from Hon. John J. Crittenden.

LOUISVILLE, Oct. 4—9 P. M.

The Bulletin publishes a letter from Hon. John J. Crittenden to his admirers in New Albany, Ind., asking for a speech defining their duty as Indianians in the present crisis. Mr. Crittenden declines speaking, but writes:

"If I were a voter in the State of Indiana, and believed there was no probability that Bell could carry the State, by its popular vote, then I would unhesitatingly give my vote to Douglas, and I should do this thinking that, I performed my duty as a true union man,—the best service that circumstances permitted me to do.

Republican Demonstration.

DAYTON, Oct. 4—9 P. M.

A Wide-Awake demonstration to day drew together a very large crowd of people, variously estimated from 10 to 15 thousand, who were addressed at our Fair grounds, from two stands, by Hon. Thos. Corwin, Hon. R. C. Schenck, Gen. S. F. Cary, Samuel Craighead and others. The grand finale of the largest demonstration ever witnessed in Dayton since 1840, the torch-light procession, was nearly an hour in passing a given point. There were 2,000 torches in the procession. City handsomely illuminated.

MR. COX, the unfortunate steward of the Great Eastern, recently had quite a serious trouble with the sailors of that vessel. On the return of the ship to England they were kept waiting several days for their pay and the building where Mr. Cox was acting as pay-master was, according to the correspondent of the Hartford *Times*, besieged by several hundred men, clamorous for their rights. Mr. Bold, another paymaster, tried to reason with them, but was received, with such remarks as, "Where is the two hundred dollars that you owe the chap for getting ice from Baltimore," "Pay your honest debts," "Don't cheat poor sailors," &c. At last the men were paid, and Mr. Cox relieved from fears of personal violence, which at one time the threatening actions of the angry sailors justified.

THE BOSTON POST says that, in the great crush of people that came down on the dock to "welcome" the Prince of Wales at his landing in Detroit, one man got wedged against a table so closely that to save his ribs he crawled under and attempted to get up on the other side. But he unfortunately became entangled under an outspread petticoat, and was only liberated from his cage after the woman had fainted, and he himself had been soundly kicked by the infuriated husband.

DOUGLASISM DEFINED.—A Douglas speaker at Syracuse was asked to define Mr. Douglas's position upon the slavery question.—Said he: "Mr. Douglas believes that if Slavery ain't a mind to go where she is a mind to, she may stay where she is, if she doesn't want to, subject to the decision of the Supreme Court, and of the people of the Territories when they is agreed on that p'int." It was taken as satisfactory by his audience.

MONETARY.

THURSDAY P. M., October 4, 1860.

Money matters remain without any essential change. Currency is easy, with moderate offerings of produce paper to day. Exchange steady at ¼ ₩ cent prem.

CHICAGO MONEY MARKET.

The *Press & Tribune* of this morning says:

The fall in exchange yesterday could not be maintained, and it went back to-day to 1 ₩ cent premium. With the immense amounts of produce that have been shipped East for the past few months, and the corresponding amount of exchange made, the question naturally arises what has become of the surplus, and how is it that the price is now 1 ₩ cent premium? We are credibly informed that the currency operators have, as we predicted, been taking advantage of the low rates of exchange to purchase large amounts of State bonds, on which bills are to be issued, in order to further dilute and depreciate our currency. The large crop with which we were blessed brought our currency to par, or sufficiently near to that standard; but the money sharks cannot profit by this state of things. Two to five ₩ cent. discount suits their purposes much better. Of course they will set vigorously to work to bring "current rates" to the old profitable figure.

The buying rates of exchange is ¼ from customers. The market would require a concession of ½@¾ from outsiders.

Gold is only wanted in small lots. Buying rate 1 ₩ cent. premium; selling 1½@2⅜.

The receipts of wheat by railroad to-day were 57,-457 bus, and the deliveries by teams quite liberal. The market was very firm, so much so indeed as to materially restrict operations, shippers not feeling warranted to come up to the views of holders. After the receipt of the *Connaught's* news last night some sales of No. 1 spring were made at 92c, but sellers generally looked for a further advance this morning, and not being able to obtain it, mostly held their receipts. On 'Change a limited amount was taken on speculation at 92½c in store; but shippers to the close refused to go above 92c for No. 1, and 90c for No. 2, and we quote the market firm at these figures. The sales of bagged lots were comparatively large at 93c for No. 1 delivered; 94c for Club; 95@96c for Extra Club, and 98c for ordinary winter. Flour was rather better, and in very active demand. About 3,590 bbls changed hands at $4.50@4,85 for common to choice country Extra; $5 for fancy city Extra, and $4,90@5,50 for fair to choice country Winter. A good share of the purchases were for New England markets. The receipts of coarse grains continue very light. There were small sales of choice barley at 63c; rye at 50c.

Grain freights were dull; vessels were freely offered at 12½c to Buffalo, and 15c to Oswego, but shippers would not make engagements except at a material decline.

LA CROSSE & MILWAUKEE RAILROAD.

The receipts of wheat by this road yesterday were larger than by any other road entering the city, and of flour more than by all the others combined. Heretofore the "old Pioneer" has kept the lead in receipts of wheat, but the indications are that the La Crosse Road will bring in very nearly, if not fully as much as it during the present month. The rolling stock of the La Crosse Road is being constantly increased to meet the wants of its growing traffic, and before another year elapses it will have the means doing as much business as any other Road in the North-west of the same length. That it will have the business there is not the slightest doubt. It will always, as at present, be the highway between Minnesota and the East.

THE WHOLESALE TRADE.

At no former period in our history has the wholesale trade been better than during the past month, and in magnitude it never was equalled. Perhaps some of our houses did a heavier business in 1855 and '56, but the number of large wholesale establishments has more than doubled since that time. The value of the receipts of the single article of sugar, for several days in the last two weeks, has reached *twenty-five thousand dollars* daily, and the arrivals of other articles of merchandize have been in about the same proportion. As an evidence of the prosperous condition of our trade, and the recovery of the country tributary to Milwaukee from the commercial prostration of the past three years, we may cite the fact that of the merchandize brought up the lakes by the New York Central, and New York and Erie propellers, thus far during the present fall, fully *two-thirds* have been landed at this port, the balance being divided between Chicago, Racine and Kenosha. Some people will doubt this, and Chicago papers will deny it, but it is nevertheless a *fact*, of which any body can be convinced by an examination of the published records of arrivals at the two ports of Milwaukee and Chicago.

Our city is the distributing point for nine-tenths of the goods consumed in Wisconsin, Northern Iowa and Minnesota, and is also the market for full that proportion of the produce of this vast extent of territory, and the cut-off railroad projects of Chicago have utterly failed in turning the current of that trade. By means of the Northwestern Railroad, Chicago had hoped to monopolize the trade of Minnesota and Northwestern Wisconsin, by tapping the roads connecting this city with the Mississippi, but the plan has proved alike unprofitable and fruitless to Chicago. The Northwestern road is built, and Milwaukee continues to enjoy even a larger share of the trade of the Northwest than ever before. Instead of tapping our railroads the Northwestern Road has become a mere *tributary* to them, and of the merchandize consumed on the line of that road in Wisconsin, not less than three-fourths come from Milwaukee. Chicago does not furnish the Northwestern road enough business to pay for the fuel consumed by its locomotives, and without its local traffic, and the traffic it derives from Milwaukee, in carrying produce to our roads and taking back merchandize, it could not be operated one month on its own resources. The simple reason of this is that Milwaukee is more advantageously located as a shipping and receiving point for the Northwest than Chicago, being almost a hundred miles nearer the sea board by the lakes, and that much more accessible to all the country West and Northwest of here, with a better harbor, and railroad facilities almost as good. With these advantages, therefore, it is no wonder that our merchants should receive so large a portion of the trade of the Northwest.

No department of our wholesale trade is in a more flourishing condition than the dry goods business, and we are pleased to notice a valuable accession to that trade in the new house of Messrs. YOUNG & FRENCH—both gentlemen of well established integrity, and long experience in mercantile life. Their store is at 69 and 71 East Water street, and is one of the most spacious in the city. They open with a large and well selected stock of goods. This addition to our wholesale dry goods houses will give country merchants, purchasing their supplies in Milwaukee, the choice of at least four as extensive establishments in this department of trade as there are to be found west of New York.—There are no two dry goods houses in Chicago whose joint business would equal that of the BRADFORDS, the SEXTONS or JAMES BONNELL, and we doubt not that Messrs. YOUNG & FRENCH will soon establish as large and lucrative a business as any of them. In fact the other houses have had more trade this fall than they could do, and it has not been an unfrequent thing, when greatly crowded, to send customers to each other. There is room for two or three more large houses here yet, and new buildings all ready for them to occupy.

In reference to the market the *Press & Tribune* says:

The receipts of wheat to-day were 126,344 bushels, and the shipments 147,872 bushels. The market opened rather flat and ruled heavy, and somewhat lower in the early part of the day, but after the steamer of the 25th was telegraphed the market advanced 1c and closed firm. About 156,000 bus were sold, at 90c for Northwestern Club; 87½@88c for No. 1 Spring; 84½@86½c for No. 2 do; and 77½@78c for Rejected—closing with a good demand for No. 2 at 86@86½c.—There was less inquiry for flour, and the market was quiet, and in some instances prices were a shade lower than yesterday. Still holders were generally unwilling to make concessions, and the sales amounted to only about 700 bbls, at $4,50@4,87½ for good to choice Spring extras. Corn was in active request, and the market advanced ½@1c. About 35,000 bus changed hands, mostly to shippers, at 41½c for No. 2 Canal afloat; 40@41c for No. 1 in store; and 39@40c for No. 1. Oats were quiet but firm at 19c for No. 1 in store. Rye was in good request at 51c in store. Barley was dull and the market advanced 2@3c—the transactions being limited at 57c for No 1 in store, and 48@50c for No. 2 in store. Timothy Seed was in better demand and the market more active, and a shade firmer—sales being liberal at $2 12@2,18. Highwines steady at 19@19½c. Alcohol 41½@43c. Hides are active and firm.

Freights continue easier. The engagements to-day were few, at 12½c for wheat and 13c for corn to Buffalo, and 18c for wheat to Oswego.

Chicago Lumber Market.

TUESDAY EVENING, Oct. 2.

The following table shows the receipts of Lumber, Lath, Shingles, &c., during the past week, and since January 1, with comparative statistics:

COMPARATIVE RECEIPTS OF LUMBER, &C.

	Week ending Sept. 29.	Since Jan. 1.	Same time 1859.
Lumber, ft..........	6990123	195188603	247331000
Shingles, No	4581000	101737500	181908634
Lath, pcs	1167000	21936953	40442635
Timber, ft..........		2470100	2331045
Posts, No	500	292545	399764
Pickets, No..........	56000	732300	429458

LUMBER—The receipts during the past week have again been liberal—amounting to about 7,000,000 feet. During the corresponding week in 1859 the receipts were 7,650,000 feet. There is every probability that, should the present prices hold, the receipts from this on to the close of navigation will be unusually liberal. On the east shore of the Lake, where the mills have run out of logs, logging has been going on briskly during the past month, and the mills are running night and day to meet the demand. In Georgian Bay, St. Clair river, and on Lake Huron, the great bulk of the lumber to be shipped will come to Chicago, as both canal and down lake freights are too high to admit of profitable shipments east. We even hear of some lumber, now at Buffalo, being shipped to this port, because of the high freights on the canal.

The market during the past week has been unusually quiet. In the early part of the week cargoes were rather dull, and there were but few buyers. Still there was no abatement in prices, and at the close the market is again brisker. Common east shore cargoes have been sold at $10, and fair to good at $10,50@11. The following are a few of the leading sales: cargo of schr Elbe, from Muskegon, at $10 mixed; schr Speed, from Muskegon, mixed, at $10; brig Mahoning, from Green Bay, mill run, at $11; schr Lizzie Throop, to arrive, from Green Bay, mill run, at $11; deck load of brig Lowell, from Depere, at $10; schr Sutherland, from Grand River, mixed, at $9,75; schr Lady Jane, to arrive, from Green Bay, at $11; schr Ellen Pike, from Grand River, rough, at $10; cargo of good Muskegon off the dock at $11; boat load of Green Bay lumber mill run, at $12.

There have been but few country dealers in the city during the past week, and business in the yards was scarcely so brisk. But this will probably be made up during the present week, owing to the inducements which are held out by the railroads for parties in the country to be present at the various political demonstrations which are to come off. There is no change, in prices; only that upper qualities are held more firmly at former outside quotations. Common lumber and fencing sells uniformly at $12 ₩ thousand.

SHINGLES.—The supply of shingles continue light, and under an active demand the market is firmer.—Several cargoes of A No. 1 have been sold afloat at $2 87½@3 00 and the prices in the yards have advanced to $3 50—some few holding at $3 75. Sawed shingles are selling in the yards at $2 75@3 00.

LATH.—Continues scarce, and the tendency is upward. For deck loads afloat $1 75@2 00 was paid, and the uniform price in the yards is $2 50.

MARINE ITEMS.

The propellers *Tonawanda* and *Fountain City* were amongst the arrivals to-day, landing about the largest loads of merchandize of the season, but for some unexplained cause no entry of their arrival was made at the Custom House, and consequently their names do not appear in our list.

COLLISION.

Yesterday morning about 1 o'clock, as the tug *John Martin* was arriving at the dock from below with a tow of vessels, the schooner *Altair*, one of the tow, sheared into the propeller *Clifton*, which was lying at the dock, tearing away more or less of her side, together with the smoke pipe, which fell to the deck.—The jar of the vessel caused her to commence to leak badly. The watchman on board the *Clifton* states that no one was on board the vessel until after she struck.—*Detroit Advertiser.*

BOOK-KEEPING

And commercial pursuits generally. It is now in a flourishing condition, and is working under a CHARTER OF INCORPORATION. The rooms are large and commodious, and are fitted up in splendid style. On introducing the subject to the student, he is led carefully, step by step, through the fundamental and general features of the science; and when these are fully realized, he is required to embark into a career of general speculation and merchandising, trading and adjusting contracts, purchases, sales, &c., &c.; making the necessary entries in the principal and auxiliary books, in precisely the same manner and order as they are made by the skillful Book-Keeper, in the counting-room or actual business.

Thus when the work is completed, the Student finds himself, not a mere theoretical, but a practical accountant, being fully conversant with every branch of this interesting and important science, as applied to General Mercantile, Wholesale, Retail, Commission, Importing, Exporting, Foreign and Domestic Shipping, Stocks, Exchange, Banking, Manufacturing, Mining, Steamboating, Railroading and business of Co-partnership or Company speculation, in each of which, he has met with adverse as well as prosperous operation.

RAILWAY MATTERS

M. & M. R. R. GRAIN WAREHOUSE AT PRAIRIE DU CHIEN.
Correspondence of the Sentinel.

MCGREGOR, Ia., Oct. 3, 1860.

Beleiving that you feel a deep interest in the prosperity of your city, as an item of some importance to your produce dealers, I am induced to give a detailed description of the admirable facilities offered by the Milwaukee and Mississippi Railroad Company, to dealers in grain at this and other points on the Mississippi river.

They have erected in the most substantial manner an elevator and weighing apparatus at the terminus of their road at Prairie du Chien, and a system of inspection and classification, by which a buyer here is enabled to tell the quality and quantity of his wheat when put in the cars—for which he gets a receipt, which is accepted at the elevator in your city, and the quantity delivered of the quality designated in his receipt, on the arrival of the wheat.

They have put in requisition a number of barges, which are made with light compartments and hopper bottoms, holding a car load or more each, which are taken across the river with their steam tugs, into which the wheat is spouted, in bulk, from our warehouses, thence taken back across the river to the elevator, inspected, elevated and weighed, and transferred into bins holding three to four thousand bushels each, and from thence spouted into cars on the track. The inspector is a man of integrity, well posted in wheat, and performs his part with impartiality and justice to all parties, and the weigher does ample justice to the Company, and gives general satisfaction to all concerned. The elevator is of sufficient capacity to raise into the bins twelve thousand bushels wheat in ten hours, and if run to its utmost capacity would probably handle twenty-five thousand bushels of wheat per day.

The whole thing is under the surveillance of Mr. LAWLER, who for his indefatigable energy of purpose, administrative talent, and gentlemanly bearing is eminently qualified to manage the most important interests that may be intrusted to him. The whole thing, from its inception to its consummation, is a master act of policy on the part of the managers of the road, and will tell in a very large degree in the enhanced business of the road.

It is understood here that the system is already extended to Lansing and other points above and below us, and when carried out to the extent contemplated will not only vitally subserve the agricultural interests of Minnesota and Northern Iowa, but will without peradventure, and without the fear of competition, ensure the business of Northern Iowa and Minnesota to the M. & M. R. R., and of course to your city, which must ultimately become the great wheat mart of the Union.

AN IMPORTANT RAILROAD CONVENTION.

The Convention of Western Railroad officers, which meets at Columbus on the 17th, promises to be one of the most important that has ever been held. The report of the Committee sent to New York to secure concessions from the Eastern railroad lines concerning rates East and West, will be presented to the Convention, and upon the action that follows, depends the independence and integrity of Western railroads. If that Convention meekly bows its head and accords the right of dictation to a body of men representing an inferior interest to their own, the burden now imposed on the railroads of Ohio, Indiana and Illinois, will never be lightened, but if the determination to assert rights and maintain to the last extremity be strictly invoked, the West will henceforth divide with the East the power to say that what is just shall be maintained, and that the East shall no longer crush the West by an arbitrary course. The Western roads can say this, and if they dare say it, they will deserve praise. To outsiders it appears to be exceedingly foolish that one interest representing $150,000,000 should control an interest of $175,000,000, especially as the talent at the head of the former is by no means superior to that which manages the latter. There is neither rhyme, reason nor sentiment in such a proceeding. There will be many considerations involved in the meeting at Columbus that will require prompt, but careful action. The fear of offending connections is the consideration we hope to see dropped—it has controlled too many railroads heretofore, and it is high time that the principle of what is good for all is good for each, should be applied.—*St. Louis Democrat.*

NEW YORK AND ERIE RAILROAD.

The *Courier & Enquirer* says of the condition and prospects of this Road:

"The approaching reorganization of the Erie Road, and its largely increased business, have called particular attention to its bonds and stock. The principal speculation has, however, been in the latter. It sold at 27 on the 1st Sept, and it has advanced since then to 43. The business done in it at the high prices is larger than any time when it sold below 20.

The increase in earnings for August, amounted to over $100,000, but it must be remembered that very large earnings are necessary before this road can become a paying one. The assents to the new plan of organization have remove from the market some $6,000,000 of stock, so that there is but five instead of fifteen million dollars worth of it to speculate upon. The new organization will create, besides $16,000,000 mortgage debt, $12,000,000 preferred stock, upon which dividends must be earned and paid before the common shares, now selling at over 40, can earn a dividend. Receipts for August were $477,000 against $359,000 last year. The bonds of the company close to-day as follows:

A MODEL CONDUCTOR.

The La Crosse road is certainly fortunate in having in its employ, as conductors, a set of just as perfect gentlemen as can be found on any road, or in any business in the Union. It was our lot to travel over this road to La Crosse on Friday last. The fact that Seward was to speak in the city, called out a perfect crowd of travellers. When the train got to Sparta every inch of room in the cars was occupied. We could but admire the perfectly possessed manner with which Greenleaf got along. He, by his evident desire to make all as comfortable as possible, induced his passengers to put up with the inconvenience of riding in a crowded car without a word of complaint. Those who, being unable to find even standing room, were compelled to ride on a flat car, seemed as well satisfied as if they had seats, and a comfortable place to ride in. They saw that the conductor was doing all he could to accommodate them. Such men help the reputation of a road, and bring to it travel that might take some other direction.—*Mauston Star.*

Without any disparagement to other conductors, we must say that the above compliment is well deserved.—*La Crosse Republican*

Permit us to put in a *big* word and a *good* one for the "Pedlar." We *know* he's a "good 'un," and can "swing a train" in a style of unsurpassed excellence. We'll also say, that no railroad in the Northwest has any better conductors than the Milwaukee and La Crosse.—*Winona Democrat.*

From our own experience we can fully endorse the above good word" for Conductor GREENLEAF, and as much might, in truth, be said of every conductor on the La Crosse & Milwaukee Railroad.

THE NEW YORK RAILROADS.

The *World* says: "One year ago the N. Y. Central and New York & Erie roads commenced a railroad war, on the principle that goods should be carried from New York to all western points as cheap as from Philadelphia and Baltimore—places from two hundred to three hundred miles nearer to those points than New York. This war cost the different roads more than a million of dollars. To-day, and since the first day of August, and notwithstanding the recent St. Nicholas agreement to advance the Boston rates, the N. Y. Central and New York & Erie roads are carrying freight from Boston (two hundred miles further) at 15c ₩ 100 lbs on first class, and 10c ₩ 100 lbs on second class, LESS than from New York—the Erie road carrying the goods through this city, and the Central via Albany.

This Line carries the United States Mail, and has not missed a daily connection since it was established, with the trains, either way, upon the La Crosse & Milwaukee Railroad.

Shippers from Milwaukee will see that this is the most reliable Line of Boats for Freights, as the lightness of draft enables them to make their trip without delay, while by any other route delays are unavoidable.

One of the above Boats will leave La Crosse every evening, on the arrival of the 1:55 P. M. train from Milwaukee, and returning arrive at La Crosse in season to connect with the Express Passenger train, which leaves at 5 A. M.
